Mike,

No updates on my end. I did speak briefly to Sarah Clem a couple weeks back and she mentioned that they were having some issues surrounding UMETCO; however, she didn't elaborate beyond that she was wondering if there was something from our end that would help them do away with the 3rd party process. I'll be going down to Crossett next Thursday and Friday to be shown around the GP waste water treatment plant and look at reference sites for the study their proposing to do on Coffee Creek and Mossy Lake. I'll see if I can find anything from her on the status.

Matt
